---

## Professional Experience

**2019 - Present**      **DevOps Consultant**  
DXC Technology

As a DevOps Consultant, have consulted multiple clients on implementing DevOps culture to legacy projects by designing, strategizing and implementing Continuous Integration and Continuous Deployment, on-premise as well as on Azure cloud. I also manage a team of few members working with multiple clients.

**2015 - 2019**      **Senior DevOps Engineer**  
Cognizant Technology Solutions

As a Senior DevOps Engineer, have designed and implemented Continuous Integration and Continuous Deployment for Java and MEAN stack applications which reduced the deployment time from a day to minutes, have implemented Centralized Log Management solution for the application and the servers, have architected private and Azure public cloud infrastructure and managed a team of few members.
